

CABO SHARK DIVE

# LA VENTANA OCEAN SAFARI

MOBULAS, DOLPHINS, ORCAS

**A remote eco-tourism experience with the objective of connecting with nature and enjoying the ocean.**

There is an incredible amount of ocean wildlife around the southern portion of Mexico's baja peninsula. La Ventana is a location on the East Cape that can offer a glimpse of how natural Baja is supposed to be. The isolated nature of this place provides not only a feeling of traveling the road less traveled but an opportunity to witness a pristine ocean environment and the animals that utilize it. The surrounding area is unique with a bay that is bordered by a large island called Cerralvo. The island creates a channel with the bay used by marine mammals like whales, dolphins and orcas to travel and a safe haven for others like mobula rays. There are always fantastic things to find on this part of the peninsula.

# La Ventana Ocean Safari

April 15-December 15

## What to Expect:

Our transportation company along with our guide will pick you up at your Cabo San Lucas resort. Guests located in San Jose will meet us at a centrally located site. Pick up time will be early approximately 5am . **You will receive an email the day before the tour confirming an exact pick up time.** It is a 2 hour drive to La Ventana where we will check in with our Captain. We will organize equipment and start the adventure!

Our boat will have an experienced guide and local captain. Our guide will be there to explain interesting facts about the area and wildlife. They will also be there to assist you in the water, spot wildlife, and take photos and/or videos during the encounters.

Our company does everything we can to instill a sense of wonder and respect for all the incredible animals we encounter. We will always evaluate the behavior of animals before we enter the water to ensure that our interactions are welcomed by the marine life. . Our objective is to find as many animals as possible, learn as much as we can and spend as much time in the water as time allows. Arrival to the dock is usually around 2pm. It's a 2 hour return to Cabo San Lucas and you can expect to be back around 5:30-6 pm.

## What We Include:

- Shared and Private trips to La. Ventana for Ocean Safari
- Round-trip transportation from all Cabo San Lucas and Corridor hotels to La Ventana and back. For our guests that are located in San Jose we meet at a convenient central meeting location.
- Box Lunch
- Burritos and water onboard
- All related snorkel equipment- Mask, fins, snorkel- (wetsuit at extra cost, if needed)
- Complimentary underwater photos and/or videos of the tour

**We want to share our passion for the ocean and we hope that is apparent in everything we do.**

This excursion to the Sea of Cortez is unlike any other trip we offer. It's a location far away from the busy streets of Cabo San Lucas. Only a 2 hour drive to idyllic waters of La Ventana. This location is a channel between the small town of La Ventana and the mountainous island of Cerralvo. This channel serves as a highway for a variety of ocean life. We have regular sightings of Bottlenose Dolphins, Turtles, Mobula Rays, Sea Lions, Whales and more. This also happens to be the best location in southern Baja for observing and interacting with Orcas.

While out on the water, we scan the horizon looking for interesting ocean wildlife and our experienced guides and captains may have a few spots they like to check as well. Once we find something interesting, we evaluate behavior and if everything is calm we jump in. Our objective is to spend as much time in the water as possible as well as provide the best up close and personal underwater encounters with the most beautiful and iconic species of Baja California Sur.
